## BAY ST. LOUIS THIRD ANNUAL CARNIVAL BALL FOR THURSDAY NIGHT

Miss Louise Carrere Queen With Mr. Anthony Glover as King Louis III—Court Composed of Sixteen Dukes And Similar Number of Maids, Heralds and Pages to Precede Royal Couple

When The Echo will have gone to press Thursday evening of this week, Bay St. Louis' third annual Carnival ball and court will have taken place at that time. And with the selection of king and queen and court and every detail attended to with the most diligent care and nothing allowed to remain undone, it is a foregone conclusion the ball will be one of the more brilliant affairs of its kind, a pageantry of youth and beauty, in royal attire of resplendent presentation, featuring the affair of the evening at 8 o'clock P. M.

King Louis III this year is represented by Mr. Anthony Glover, a son of Post Master and Mrs. H. C. Glover, and as his queen Miss Louise Carrere, of Bay-Waveland and New Orleans, who was honored the evening previously as queen of the ultra-fashionable Krewe of Mystery Ball, of New Orleans, at the city auditorium.

Miss Carrere is to wear at the Bay St. Louis Carnival ball the same regal attire of the Mystery Ball, the same mantle and crown and scepter of rhinestones, a privilege that has never been accorded Bay St. Louis and probably never again.

Miss Carrere served as maid in two courts of the Carnival in New Orleans this season and her crowning social triumph and distinction came when she was acclaimed queen of the court of Mystery.

King Louis III also is to wear the regal court costume of a former King of a New Orleans ball, with all the richness of material and jewels that mark the long shoulder mantle, studded with gems and jewels. Mr. Glover and Miss Carrere will wear their priceless robes in all glittering effulgence with becoming grace and dignity. Both are popular and, with the members of the court, the ball will be numerous attended, provided, however, we are spared the brand of inclement weather of which we have had a superfluity.

Mr. W. J. Gex, Jr., is general chairman of the ball this year, actively assisted by Mr. E. J. Arceneaux who was the honored king of last year's ball and court, with Miss Effie Graham Power (now Mrs. H. D. Elliott) as queen. Mr. Rene de Montluzin, Jr., is chairman of the floor committee. Mrs. Theo Tudury, president of the Mothers' Club, general chairlady, who worked indefatigably for the success of the affair as an executive.

Mrs. Marie Louise Jaden, as of other years, serves as an executive committee of one for solicitation and creation of the court, a task which she has carried out again with more than ordinary ability and with marked success.

The full personnel of the court, as officially planned and accepted follows, under proper heading.

## LIBRARY INTEREST INCREASES

Waveland Branch Receives Room—Colored Branch Gets Book Case—More Books Donated

The interest shown in our library is increasing in every way judging from reports received from the branch libraries and by the hand-some volumes donated recently.

Mrs. Ballard gave to the Colored Library, in her chauffeur's name, a revolving book case. Arsenne Collins, the colored librarian reports that this book case was much needed and appreciated and adds immensely to the attractiveness of her library which now numbers over 400 volumes.

The Town of Waveland is co-operating with Emelda Bourgeois by giving her a room in the Town Hall and building for her seven book shelves. This library should prove a convenience to the Waveland population unable to find time to visit the main library.

Miss Elizabeth Harriel writes from her library in Sellers that she has taken a six-months subscription to a daily paper. Also, that "the men ask for text books on civil engineering, and also mechanical magazines. I have one text book on agriculture and it is continually read. Altho' it has been bad weather folks have come for six and seven miles to get books these two weeks."

The much talked about "Europa" by Robert Briffault was donated by Mrs. Victor Lowmes through Mrs. Carl Marshall. Some of the books received from the Cloverhook Home for the Blind in Cincinnati and recently mended by Miss Crawford are: "The Native's Return" by Louis Adamic which describes the author's return to his native country, Yugoslavia, after 19 years of life in America; "A Chinese Testament," the autobiography of Tan-Shih-hua as told to S. Tretakov; "The Autobiography of Michel de Montaigne" edited by Marvin Lowenthal and comprising the life of the wisest man of his times, his childhood, youth, and prime; his adventures in love and marriage, at court, and in office, war, revolution, and plague; his travels at home and abroad; his habits, tastes, whims, and opinions; "Paderewsky," the story of a modern immortal, by Charles Phillips; and "Death in the Air" by Agatha Christie.

Books purchased this week were: "Moni, the Goat Boy" by Spyri; "Covered Wagon" by Hough; "Lorna Doone" by Blackmore; "Seven-teen" by Tarkington; "Parnassus on Wheels" by Morley; "New Worlds to Conquer" by Halliburton.

### CAMELLIA SEASON AT HAND

Again, at this time of the season, the Mississippi Gulf Coast and interior witnesses the general blossoming of the famous japonica camellia, native of Japan, which flourishes in this section and parts of Louisiana to a degree of marked success. In and around Bay St. Louis and in the Jordan river and Pearl-ington-Logtown sections of Hancock county the camellia bushes just now are responding prolifically and beautifully to the call of the season of blossom time and many of the bushes seen around town that compel the admiration of passer-bys. There are several bushes about town that call for special mention but we fear these are too numerous to mention, as we newspaper people are wont to say. However, the white camellia of Mrs. (Dr.) C. L. Horton, originally planted by the late Mrs. (Judge) J. A. Breath and said to be over seven-fifty years old, year after year unfading unlike its immaculate white petals. Then the integrated camellia, an unusual combination of colors, adorns the front yard of Mrs. Edith K. Davis, Carroll avenue, a tall bush and bearing generously. Hundreds of other bushes in this section are noted for their beauty not forgetting one in Mrs. L. F. Alexander's yard (formerly home of Mrs. Lillie K. Leonard) and the two giant trees on the premises of Mrs. Charles A. Breath.

## AUTO DRIVERS WARNED AGAINST USING 1935 LICENSES

Owners and Drivers to be Arrested if Caught On Streets Beginning Monday 24th.

Orders from the Sheriff's office are to the effect that any drivers of automobiles bearing last year's auto licenses caught on the streets of Bay St. Louis Monday, will be arrested and properly dealt with.

Numerous cars are seen daily on the streets still displaying old tags which is a violation of the law and it is the intention of the sheriff's office to compel owners to purchase new tags or else discontinue the use of their automobiles.

New tags may be purchased by payment of the price of the tags and an additional penalty fee for being delinquent. Secure your tags now and save yourself the embarrassment which will certainly come if you are one of those arrested.

Chief Deputy Francis J. Bopp told The Echo that this practice must stop.

## Stanislaus Cagemen Beat Orange Grove In Good Game Monday

St. Stanislaus, after taking a tight game from the McGill Yellow Jackets Sunday afternoon, duplicated the feat in the college gym here Monday night defeating Orange Grove 30 to 24.

Throughout the first and second quarters, Stanislaus maintained a margin of approximately eight points over Orange Grove, keeping the ball constantly in play.

During the second half Orange Grove steadily crept up on Stanislaus, while the Rockchaws seemed content to watch and wait. Finally Orange Grove began to get too close for comfort and although trying to "freeze" the ball for the last three minutes of play, Stanislaus was unsuccessful.

Stanislaus lost a hard-fought game to Biloxi at Biloxi recently, its first real conference defeat of the season, but in the past two games, the Rocks played in fine style to take two of the hardest scheduled games.

## NEW TEA HOUSE FOR BAY BEACH

Mrs. Anette Gillespie-Elmer Contracts For Building Near Head Bookter Avenue

Mrs. Anette Gillespie-Elmer, for three years in charge of Hotel Tivoli, Biloxi, and served as hostess at Pine Hills, Inn-by-the-Sea and other prominent resort hotels on the Coast, has given the contract for the building of a resort to be known as a tea house, a fitting name to be selected later.

This building will be located on the water side of Front street, head of Bookter avenue. The building is being constructed by Mrs. Gillespie-Elmer as her own property and will be personally operated as a place of resort where one may be served with meals, soft drinks, etc., specializing in a special Sunday excursion dinner throughout the day.

The building will have many new features and marked improvements and will be the last word in attractive construction. The plan is to make the place not only new and up-to-date, but where ladies and gentlemen and children as well will love to visit and patronize.

"Bay St. Louis has long needed a place of the kind I am building," said Mrs. Gillespie-Elmer to The Echo, and since I have decided to make home and to cast my lot among its good people, I have planned this building and its up-to-date improvement with a view of meeting a long-felt demand and to attract as many visitors to Bay-Waveland as possible.

The public likes a new place, one that is built up-to-date and offers all comforts possible, both winter and summer. For winter there will be a large open fireplace where one will love to sit around and view the fire."

It is expected the place will be finished and ready for Easter, when it will be open to the public.

## HIRAM J. PATTERSON, NEW HIGHWAY HEAD, ISSUES STATEMENT

New Chief Promises Cooperation With Governor, Colleagues and Road Employees

(Special to The Sea Coast Echo) Jackson, Feb. 18.—Hiram J. Patterson, highway commissioner for the southern district, shortly after his appointment by Governor White declared that he expected to devote his entire time to his newly acquired duties.

Patterson stated that his policy would be one of "cooperation" not only with Governor White but with the other commissioners, the employees of the department and with the contractors and their employees also.

The commissioner declared that he did not contemplate any large scale changes in the personnel of the southern district saying, "So long as employees of this district give efficient and satisfactory service I see no need to make any changes." He was emphatic in declaring that he expected the highway department employees to render prompt, efficient and courteous service to those Mississippians residing in his district.

"I wish it were possible for me to give each person applying to me for employment a position with the department," Patterson said, "but even though we are starting on a \$42,000,000 road building program there will be no increase in the department's staff as the contractors awarded the actual construction work will be the ones to employ the necessary labor for this program."

At the present time Mr. Patterson is familiarizing himself with the administrative work of the highway department but stated that he expected to make a visit to every county of his district within the next few weeks.

"I expect to spend a large portion of my time in my district in order that I will have first hand knowledge that the construction and maintenance projects of the southern district are receiving the proper attention," he said.

The genial commissioner has won a reputation for his organizing ability by the successful management of the campaign of J. F. Thames of Mendenhall for highway commissioner in 1932 and that of Governor Hugh White in 1935.

He stated that he would open his permanent offices in Monticello within the next few days and promised immediate attention to all matters brought to his attention pertaining to the highway system of the southern district.

## MARDI GRAS DAY PROCLAMATION IS ISSUED BY CITY

Mayor Blaize has issued his proclamation declaring next Tuesday, Mardi Gras Day, February 25, an all-day holiday.

As usual both banks will observe Mardi Gras as a holiday and no business will be transacted for that day and business places will close, at least a half day, during the afternoon.

Mardi Gras is a local holiday as much as in other communities where the day is observed with parades, promiscuous masking and general frolicking. This is a custom of generations and certainly this year is no exception.

Many will visit the Crescent City for the day, the city that care forgot for that day. In all, it is planned to make it a general holiday of jollification, a day of recess from the arduous duties of everyday life. The City Proclamation is attested to by Commissioner W. L. Bourgeois and City Commissioner H. Grady Perkins.

'Red Letter Day' For Gulf City March 7—Million And Half-Dollar Project

March 7 is set as the day for a big state-wide celebration to be held in connection with the completion of the new \$1,150,000 PWA dock improvements and a special train will be run from Jackson to bring the entire personnel of the state legislature there for the occasion.

Work on the new pier and warehouse constructed at a cost of approximately \$1,150,000 is virtually complete, and the big celebration on March 7 will witness the official acceptance of the project by port commission and municipal authorities.

The concrete docks covering approximately eight acres, with a mammoth fireproof warehouse of around five acres of floor space, gives Gulfport, Mississippi's only deep water seaport, shipping facilities, comparing favorably with ports in other states along the Gulf of Mexico.

## Resignation of Mayor John A. O'Keefe Became Effective Wednesday

The resignation of Mayor John A. O'Keefe of Biloxi became effective Wednesday and the city council met today to take up matters concerning the special election necessitated by the mayor's resignation. Commissioner John A. Swanzy is acting mayor.

It is not known what course the council will take in regard to the election and so far as is definitely known there are only three candidates who have positively stated their intention of running for the office.

### WOODMEN MARDI GRAS BALL

Woodmen Mardi Gras Ball, afternoon and night, will attract many visitors to Bay St. Louis from surrounding territory since this is a regular annual affair and supplies a means whereby the public generally may enjoy the day and evening in the regular Mardi Gras fashion, of masking and dancing.

The management, through this medium of The Echo columns, invites the public to attend and participate in the general festivity. The price of admission is low and will serve as an added inducement to attend. It is well known the Woodmen give this one ball thru the year, and some times on July 4th, thus giving other organizations opportunity of holding benefit affairs on holiday dates. This is considerate and deserving of recognition.

## NATIVE-RESIDENT OF BAY ST. LOUIS PASSES AWAY UNEXPECTEDLY

Frank John Sanger Buried Wednesday Afternoon At Cedar Rest—Was 48 Years Old

Frank John Sanger, adopted son of the late Mr. and Mrs. Charles Sanger, Citizen street, Bay St. Louis, died rather unexpectedly Tuesday afternoon, February 18, 1936, at 1:30. He was a native of Bay St. Louis, aged 48 years, unmarried.

Funeral took place Wednesday afternoon at 3 o'clock from the Fahy Funeral Home, Union street, with interment in the family burial place at Cedar Rest cemetery. A large number of friends of the family attended the last rites and many flowers marked the last resting place.

"Frankie" was brought up in the neighborhood of the vicinity of the Sanger home, where he was well known and had many companions. He was of the friendly nature, a good citizen and his death rather unexpected was the source of much regret. He had not been very well for some time but that the end was so near came as a somewhat surprise.

By W. D. ROBINSON

(Special to The Sea Coast Echo) Jackson, Miss., Feb. 19.—Looking forward to the time when Mississippi no doubt will have large oil fields, particularly the south or Gulf Coast area, where geologists assert the outlook is favorable, Representative Reece O. Bickerstaff of Harrison county has introduced a bill in the House to authorize the granting of franchises for pipe lines by municipalities.

Providing For Sudden Oil Development

The bill would permit all municipalities in the State, whether operating under the municipal code chapter, commission form of government or otherwise, to grant by ordinance without an election therefor, franchises to persons, firms, corporations or associations for a period of time not in excess of twenty-five years, for such reasonable consideration and on such terms and conditions as the governing authorities may prescribe, to construct, maintain and operate pipe lines under streets, alleys, roads, parks and other public grounds, for the transportation of crude oil, kerosene, gasoline and other commodities transportable by pipe lines. The bill stipulates that the franchises shall not be exclusive.

The purpose of the bill is to have a State law ready for any emergency that might arise as the result of a sudden development of a big oil field. Quick construction of pipe lines would prevent waste and enable the orderly marketing of oil.

### To Enable Municipalities to Buy Tax-Forfeited Lands

Representatives Bickerstaff of Harrison and Ford, Jackson, have introduced a bill in the House to amend section 2588 of the code of 1930 so as to permit municipal corporations to acquire the State's interest in lands within such municipalities that have been sold for taxes under specified conditions.

The bill would provide that where lands are offered for sale for unpaid municipal taxes, and a person will not bid therefor, the amount of taxes, damages and costs due on the same shall be struck off to the municipality and otherwise where applicable dealt with as lands which are sold to the State for delinquent State and county taxes.

The bill would further provide that the municipal board shall be authorized to pay the State and county taxes on lands thus acquired by it, or to purchase the lands from the State at a price to be fixed by the Land Commissioner and Governor, and to collect the money thus paid, with the same damages and interest or expense of purchase and damages and interest allowed individuals in similar cases under the general revenue laws of the State thereon from the date of such payment or purchase upon the redemption or sale of the lands from the municipal sale.

Under existing laws and customs municipalities sometimes lose out on taxes due them when tax forfeited lands are sold by the State. The bill would give them protection by enabling them to buy tax forfeited lands situated within their corporate boundaries.

## "Weekly Paper A Household Necessity"

MEMBERS of the Wisconsin Press Association, the first state press association in the United States, read with pleasure recently a statement by Governor Phil La Follette on the value and importance of the weekly newspaper. The views were sent to Hugh C. Gresham, publisher of the Cheney (Kan.) Sentinel, who is collecting similar statements from governors of all states.

That is why it has become almost a household necessity of every farm family.

"By telling week after week, the intimate personal and human story of the men, women, and children of our farms and small towns, the weekly newspaper creates and fosters a splendid community-consciousness. Thus it provides the foundation for community co-operation and for the mutual understanding among individuals and groups so vital for collective and progressive effort."

Wisconsin's first newspaper was founded 102 years ago, and the WPA was formed five years later.

## FOR PROTECTION ON THE HIGHWAYS

THE mania for building smoother and quicker running automobiles continues and that is because the public demand makes it so.

Buying public, it appears, are looking for a car that will run better, with less vibration and at greater speed. Manufacturers dare not advertise faster-running cars. It wouldn't sound right. But they are making them nevertheless. Because the auto-buying public demands it, even though possibly unconsciously.

The question then arises, how are we going to reduce the maximum number of accidents. Daily papers carry stories of tragedy. Every week-end has its full quota of harrowing tales of death and suffering. The daily example of fast driving serves to no purpose.

We read in the Monday morning newspapers where a young woman was killed and the driver of the car is lying on his back at a New Orleans hospital—his condition still undetermined. The accident happened during the early morning hour, when traffic was lighter than at any other time. But on the other hand, the daily paper reports state the driver was passing thru the country at a point not far from Gentilly at a rate of 65 miles!

Further comment unnecessary.

The desire for speed is insatiable. We see it here in the very midst of our city and county. The highways carry the speedsters to and fro. At night, one-light cars menace the lives of the careful drivers. No one is safe from speed demons, the careless driver and the gentleman who drives with one hand while the other arm seems to be engaged in affectionate solicitation.

The proposition now before the Legislature for a State highway police is appealing for the reason it is necessary and will serve as an effective means of protecting fast and reckless drivers from their own folly and the public from the insane that drive (?) autos and trucks. We hope the bill will pass.

## FRAUGHT WITH DANGER

JUST as Biloxi has absorbed Ocean Springs and practically made it a suburb, says the Biloxi News, just that way New Orleans, with the Shortcut and newspaper advertising is going to make Biloxi—a suburb of New Orleans.

The Biloxi scribe calls attention to the danger thereof; that Biloxians will be buying in New Orleans and the best of cream of the trade will be lost to Biloxi.

With Biloxi located so many miles more distant away, how much more will this theory of losing community identity and business apply to Bay St. Louis within only an hour's ride from New Orleans by auto?

The daily newspaper of any importance and circulation reaching Bay St. Louis comes from the New Orleans press. Morning and evening the newspapers cover this section in thorough fashion. Just like the morning newspapers, the evening newspapers from the big city carry large and attractive advertisements. Merchants tell in true manner the kind and quality of goods offered and at what prices. Buying public read newspapers and buy therefrom. Newspapers are selling New Orleans to Bay St. Louis.

The best way to keep our own community individually is to better conserve our interests, to patronize our own places of business, to participate in our own civic activities and to actively become part and parcel, so to speak, of our own locality. There is no idea or suggestion of boycotting New Orleans for that city in great measure and in other ways patronize the Gulf Coast and this place in particular and there is ample room to operate on reciprocal basis without passing the danger line.

## CONDITION OF SHORTCUT ROAD

UNLESS the Mississippi-Louisiana Shortcut highway is put into better shape than it has been since its opening, following an almost incessant rain, the full value of the "cut" will be considerably depreciated.

At the Pearlinton end of the road in Mississippi and at the Rigolets end of the highway in Louisiana the condition is reported such as to be anything but fit to travel in any manner that might count for time-saving. It is necessary to travel with the utmost caution. One cannot make very much time on this short-cut.

Just what action will be taken in the premises is not known, however, one thing is certain and that is such action will have to be taken at once. The longer the ruts remain thru the hard-surfaced top the worse the condition will become. Possibly the patching by local forces may hold to advantage if the rain fall will subside. It is as much Louisiana's business as it is that of Mississippi's. The condition exists in both states.

Respect for the professions, in the old days when there was respect, was based on the belief that they had honorable codes of ethics, upheld by the members. Nowadays, a ruthless minority uses worthy professions for extortion and honorable members sit back and do nothing about it.

Honestly, we can't understand why it is wrong for farmers to limit production in order to get a fair price, and right for manufacturers to shut down plants and throw workers out of employment, thus cutting production in order to get a fair price.

## TAKING ISSUE WITH A FRIEND

OUR good friend, John H. Lang, one of the oldest and best informed residents of the Mississippi Gulf Coast, residing at Pass Christian, is a frequent writer to the press, always having something to say. Most of the time he reminisces, dwells in the memory of other days.

Elsewhere in this issue of The Echo he has a letter, bringing out the point, according to his own way of thinking, that every place on or along the Coast are named for the waters upon which they are situated. Our friend writes from fancy, even though in instances he strikes it right or near right, but we are of the opinion that most of the places along the Coast owe their names to history and not so much to geographic location. His fancy is quite pretty, somewhat of the poetical and fantastic.

Bay St. Louis, originally Shieldsboro, was named after King Louis the XIV. It appears, from fragments of history, Bienville and Iberville bands of explorers were on their way to New Orleans by way of Lake Pontchartrain. Enroute from Mobile waters they sailed by Bay St. Louis. It was Louis' birthday and they at once named the place after their beloved king of La Belle France. Bay St. Louis was always the name but the port of entry and postoffice for many years remained Shieldsboro, until later Congress, in order to avoid confusion, had the one place given the one and original name of Bay St. Louis.

Pascagoula was originally known as Scranton and it was only in recent years it was given the name of the Indian tribe, Pascagoula. And the legend of the singing river originating from the Pascagoula Indians.

Biloxi was also named after the Indian tribe that made that section their abode, just as the Choctaws inhabited Bay St. Louis. "Biloxi" in the language of that particular tribe of the red men, signifies "broken pot."

Ship Island was named such for the reason the waters at the island was the only deep water of the coast. It was the place where ships weighed anchor and loaded lumber from lighters for many years. During the war vessels anchored there. It was always a place for ships to land and await their cargoes, hence the name Ship Island.

Handsboro was a great sawmill center. Hand Bros. for generations operated mills there and the place was named after Messrs. Hand.

Waveland was known as Montgomery at one time. Later it was part and parcel of Bay St. Louis and operated under the one and same incorporation. How the name of Waveland originated is not quite clear and a further investigation would become necessary before making a more definite statement.

If there are any springs in Ocean Springs no one seems to know of their location. And if the place had been named after the finding of springs on the edge of the gulf waters surely Ocean Springs would not be appropriate and the place could hardly have been named after the imaginary springs.

And neither Mississippi City, Cat Island nor Deer Island could have been named "for the waters upon which they are situated." The assumption does not hold. This might only apply to Pass Christian, named for a "pass" located out in the water, but how the name Christian became incorporated in the name as a whole remains unsolved. Not even suggested by any water present or nearby.

Gulfport is the only place which has taken its name from the water.

As near as we can make out, from a careful reading of the Washington Commentators, both parties are about to win a tremendous victory at the polls in November.

## FACE THE FACTS

EVERY once in a while it is good to look facts in the face even if the truth isn't pleasant.

Hence we were interested in Senator Vandenberg's effort to borrow the brains of Morgan bankers for a suggestion about collecting the money loaned to other nations during the war. It would be a help to our national treasury if sums were available from this source to pay the bonus, the farmers' benefits and other governmental expenditures.

What did the bankers say? Simply that collection of the debts depends upon a world in which trade is encouraged instead of one beset by an economic fever of nationalism with high tariffs, quotas and restrictions. The idea being that the debts were created when Europe took vast quantities of our goods and can only be paid when we become willing to accept goods in repayment. So say the experts.

It may be that the United States does not care to follow the advice of the banker. In fact, it is quite probably the case. However, this doesn't alter the facts.

If George Washington could visit his old country on his birthday, Saturday, he would, no doubt, be amazed to see how many modern movements are being tied to the Washington coat-tail.

## OUTLOOK FOR COUNTIES GROWING BETTER

GIVING preference to certain highways every roadway in Mississippi of any importance in due time will be hard-surfaced to that extent of permanence that will spell intelligent economy. There are forty million dollars available for such program.

It has been proven, and the test at terrific expense and waste, that gravel roadways do not hold up and that cost of maintenance is costly and unsatisfactory.

There is every reason to believe that hard-topping county roads is not far in the distance. With every highway and main artery hard-surfaced in Mississippi there will follow a campaign—and it will be accomplished—for hard-topping every byway. This will come to pass in Hancock county as well as every county in the State. The dirt road has come to be an expensive proposition for the double reason. It is costly and unsatisfactory. The dirt in winter does not hold up, neither does it wear well in fair weather where traffic is heavy.

Intelligent and far-seeing county supervisors will see that to hard-top county roads will

### A DANGEROUS PROPOSAL

(Jackson News)

MUCH well-meaning legislation is often wrong.

For instance, that bill pending in the legislature giving the Governor authority to remove from office a sheriff who fails to enforce the law.

Such sheriffs should be removed, of course, but not by that route.

Translated into a statute, it would be downright dangerous.

It would be conceivable that a Governor, for political reasons, might have a grievance against a sheriff, and with or without justifiable circumstances could jostle the sheriff's job right out from under him.

Law enforcement officers are elected by the people and are therefore responsible to the people. Why they fail to enforce the law, there is a plain route to get them out of office by preferring charges before a grand jury.

### WORTH EMULATING

(Jackson News)

COUNTY superintendents of education in Mississippi ought to take a lesson from Prof. Ben Middleton, superintendent of schools in Yazoo county.

Despite depression the schools of Yazoo are sitting on top of the world, so to speak.

Prof. Middleton has a surplus of between \$60,000 and \$70,000 to the credit of the schools in his county.

He had the gumption to recognize depression and make his plans accordingly, cutting out all non-essentials.

### GOVERNOR WHITE SENDS FIRST VETO MESSAGE TO LEGISLATURE

Governor White sent his first veto message to the Legislature—Two veto messages, in fact.

The governor returned without his approval two local and private measures for Lincoln and Coahoma counties. Both dealt with injuries to livestock and undertook to authorize the boards of supervisors to compensate the owner for stock.

Appended to both messages were memorandums from J. A. Lauderdale, the assistant attorney general, advising the governor that both bills were in contravention of the constitution, which reason was given by the executive for his veto.

mean the cheapest and best in the long run.

Counties will not remain in debt. Ordinary spending has been cut less than half and the heavy bond debts carried by the majority of counties are being liquidated with the passing of time.

The outlook for the counties is promising. Especially since the report this year from the majority of counties, including Hancock, that tax collections are better than for the past several years. Less people are taking advantage of the time-payment plan and more people are paying, consequently less delinquents.

Every supervisor and county officer is working for the one object, of making for a better financial situation; of getting out of debt and to ameliorate things better for Mr. and Mrs. Tax-Payer.

### CAUTIOUS STEPPING

(Biloxi News)

OCEAN SPRINGS residents were somewhat embarrassed when attention was called to the fact their fine community had gradually become a suburb of Biloxi. So gradual had this change been brought about that the people were unconscious of the change.

Various groups of citizens and clubs upon awakening to the conditions discussed the situation but they were faced with the ironic conclusion that they unknowingly aided in uniting the two municipalities. Naturally the larger of the two consumed the smaller and there was nothing to be done about it.

There has been a great friendship between the two communities. Together they have worked to mutual benefits with the bridge between them being the tie that binds.

Recently we commented on the change which had been brought about and warned of the impending danger of having the same thing happen to Biloxi. It is up to the citizens to protect themselves from such an occurrence, by taking a unit stand to help each other.

This we mean in a business sense. New Orleans and its merchants are reaching out grasping for the Coast. The short-cut highway is the tenacious grasping for the business of this section. They are using as a lure advertising circular and newspaper advertising circulars to take away business which legitimately belongs to Biloxi merchants.

Patronize Biloxi business and Biloxi will thrive. Destroy Biloxi business and as Biloxi did. Ocean Springs, will be swallowed by New Orleans.

### NEW FRENCH OPERA HOUSE MAY BE RESULT SOON

A. Miles Pratt, city finance commissioner, plans to submit an application to the Public Works Administration for funds to rebuild New Orleans' famous old French opera house, destroyed by fire in 1919.

The magnificent old structure, designed by Gallier and completed in 1857, was a center of culture and refinement and the scene of brilliant performances by stage stars of the late nineteenth century.

It was in this building that the carnival ball used to be held. Adeline Patti made her debut there. Jenny Lind Schuman-Heineck, Madame Shewer-Lamotte, Madame Hervy and others starred in the old French opera that, in its heyday, was considered on a par with New York's metropolitan.

Plans for reconstruction call for a detailed replica of the old opera house, including the closed boxes where patrons in mourning could listen to the opera without actually appearing before the public.

### TWO HELD IN AUTO THEFTS AT PASCAGOULA

Charlie W. Byrd, said to be from Anniston, Ala., and William Basaraba, said to be from Michigan, both about 24 years old, are in the Jackson county jail at Pascagoula awaiting a hearing on a charge of stealing two automobiles on Saturday afternoon. They will have a hearing before Justice of the Peace O. D. Davidson in Ocean Springs.

The stolen automobiles belonged to Mrs. Chester Davis, of Ocean Springs and L. C. Winterton, of Gautier. Byrd claims that he is a soldier on a 25 day furlough from Fort Sam Houston at San Antonio, Texas, and that his furlough will expire on Saturday. The car of Mrs. Davis is said to have been stolen from in front of the Baptist church of Ocean Springs on Saturday afternoon.

SECRETARY OF State Walker Wood is sending out this week copies of the bound volumes of the Laws of the Extraordinary Session of 1935 to the various officials of the state, districts and counties as directed by law. Copies of all county officers and the supervisors of each county are being labeled individually and then the entire allotment for each county wrapped in one package and express prepaid to the chancery clerk of that county for distribution. County officials and supervisors will call on the chancery clerk for their copy of these laws. The copies of the Law for justices of the peace and all state district officers will be mailed direct to them.

### BACK TO THE GOOD OLD DAYS

The work of receiving and recording charters in the office of the Secretary of State is rapidly resuming the proportions experienced back in the days of 1927-28-29, so far as number of charters is concerned. Up to close of business February 13 there had been received and recorded 27 charters, or an average of 2.7 charters each business day.

### BIG SAVING TO THE STATE

Mississippi eclipsed all former records for bond sales at a low rate of interest February 11, when a sale of bonds was closed for 1 1/2 millions dollars worth of Hospital Removal Bonds at the record breaking rate of 2 1/4 per cent interest, and in addition for a premium of \$5,275.00. The state will save the handsome sum of \$83,000.00, plus the premium of \$5,275.00 on the sale of these bonds. Figuring the old bonds would not have been paid off until maturity date, the state has saved two-thirds of a million dollars in interest, as the refunding bonds are ten year bonds.

### PRESENTS PAINTING TO STATE

Chris Wilhelmson of McComb City presented to the State, through Governor Hugh White, on February 11, a very large and handsome painting, executed by Mr. Wilhelmson. The painting stands on a large easel, and is about 6 feet by 5 feet in size, and portrays the good ship "Mayflower" sailing peacefully on a placid blue sea. It is appropriately framed, the frame being painted in national colors, and dotted with forty-eight silver stars, with heavy gilded 1 1/2 inch cord around the frame. The picture may be seen in the Department of Archives and History on the bottom floor of the New Capitol.

### AWARD ROAD CONTRACTS.

The State Highway Commission last week let contracts amounting to approximately two-thirds of a million dollars. The contracts awarded affected the following counties: Covington, Forest, Stone, Sharkey, Adams, Union, Lincoln, Copiah, Lawrence, Warren, Pike and Bolivar. Six projects will be awarded at a meeting to be held February 25th, which will make a total of about one million worth of contracts awarded during February.

### BILLS INTRODUCED

Among bills introduced of more than average interest, in the legislature during the past week are:

Senate Bill No. 222, by Stubblefield, would provide a state-wide privilege tax on retail liquor dealers.

Senate Bill No. 217 would authorize counties and municipalities to advertise resources and access limited taxation to pay for same.

House Bill No. 258 would provide that managers, clerks and bailiffs, in charge of elections, receive \$3.00 per diem compensation.

House Bill 311 would authorize boards of supervisors to borrow not over \$100,000, with which to match federal funds.

House Bill 314 seeks to provide for chancery and circuit courts to act in vacation in certain cases.

House Bill 348 would provide for all cities to prepare budgets of expense.

House Bill 349 would provide educational opportunities for children of soldiers, sailors and marines killed during world war.

Senate Bill 230 would add a road from Highway 80 to New Insane Hospital at Whitfield.

Senate Bill 283 would provide that nine jurors may return verdicts of "not guilty" in criminal cases.

1936, and maturing serially, as follows:

\$5,000.00 March 2nd, 1936;

\$5,000.00 March 2nd, 1940;

\$5,000.00 March 2nd, 1941;

\$5,000.00 March 2nd, 1942;

\$5,000.00 March 2nd, 1943;

\$5,000.00 March 2nd, 1944;

\$5,000.00 March 2nd, 1945;

\$5,000.00 March 2nd, 1946;

\$5,000.00 March 2nd, 1947;

\$5,000.00 March 2nd, 1948;

\$5,000.00 March 2nd, 1949;

\$5,000.00 March 2nd, 1950;

These bonds are to be delivered to us with approval of Chancery Court and an unqualified legal opinion at the county's expense.

This offer is subject to confirmation by you.

Yours very truly,

Chas. B. Murphy, President.

## COLBERT, McMURRAY CO-STARRED IN FILM AS 'SCRAPPY LOVERS'

The story of a modern girl with a super-charged temper who meets and loves a man who prefers fighting to eating comes to the screen of the A. & G. Theater, Sunday and Monday in "The Bride Comes Home," with Claudette Colbert and Fred MacMurray in the featured roles.

It is a thoroughly amusing story, skillfully presented, and possesses a definite appeal for all married couples. The spectacle of a young woman and a young man who disagree on everything from spinach to toothbrushes, but manage in their impetuous way to work out their heavy problem, would be difficult to present without being entertaining.

Yet "The Bride Comes Home" is more than that. The picture could not have been better cast. Lovely Miss Colbert is superb as the society girl whose father has lost all his money and who decides to go to work, while MacMurray is grand as the hard-boiled, two-fisted newspaperman who turns magazine editor and finds Miss Colbert working as his assistant.

Though they battle from the moment of their meeting the magazine force of love conspires to bring them to the threshold of marriage—with the jilted playboy millionaire, Robert Young left sulking in the corner. Then Miss Colbert is informed that MacMurray snored! She learns that he goes stark mad if anybody so much as touches his toothbrush, even the handle. Further than that, he can't work properly in his apartment unless the floor is piled with rubbish, the bed unmade, and dirt a half inch thick on the furniture.

When Claudette undertakes to give the apartment a thorough cleaning a few hours before the scheduled wedding, MacMurray almost embarks on a cataleptic fit and chases the justice of the peace out of the house.

The denouement, when Miss Colbert and Young elope to a Gretna Green outside Chicago, with MacMurray in close pursuit astride a speeding motorcycle, furnishes one of the most hilarious episodes the films have offered in months.

—Miss Timony and Mr. Timony Swoop and Mr. Andrew Hillery came out from New Orleans the past week-end and spent the while at their summer villa on the beach front, one of the famed homes for comfort and hospitality that are so mindful of the ante-bellum days. Mr. Swoop says he is interested just now in putting out a number of pecan trees about the place, adding to the spacious grounds more beauty and interest as well.

—Representative Lucien M. Gex came down from Jackson for the week-end during a recess period of several days. The Legislature, he says, feels the passage and signing of the bill calling for forty-million dollars for building highways in Mississippi, will be the high spot of this session. After that there leaves little or nothing but remedial legislation to be accomplished and it is possible adjournment will be earlier than ordinarily expected. Mr. Gex is on the banking and fisheries committee and other important assignments were given him. This session of the Legislature appears to be sane and safe and is working in harmony with Governor White.

—Mr. and Mrs. Paul Leitz, who reside in the cold regions of Eyota, Minn., and have been spending part of the winter visiting at the home of their relatives, Mr. and Mrs. R. L. Genin, after viewing the Carnival at New Orleans next week, will begin planning for their return home. Their visit has been one of interest and pleasure. Mr. and Mrs. Genin entertained informally members of their regular Tuesday night card club this week in compliment to their house guests, an evening of pleasure and memorable delight. Mrs. Leitz, before her marriage, was Miss Alma Genin.

—The A. & G. Theater scored quite a hit with their patrons Sunday and Monday evenings when they presented Shirley Temple's newest picture, "The Little Rebel," only recently released. The management always presents the big features. They have for immediate presentation a number of latest Paramount super features for which screen previews are shown nightly. They are well covering the local field and leave nothing undone that the public could wish for, regardless of cost.
